**Mr. Romel**

***Mrs. Johnson talks to Mr. Romel***

**How can we help you Mrs. Johnson? Are there any concerns that you may want to discuss with Dr. Cooper today?**

**Yes... I haven't been feeling too good lately. I think my blood pressure is acting up and I am a bit concerned about it.**

**Ok... Remember that it is very important that you tell Dr. Cooper what you've been feeling. She can help you and answer your concerns about your blood pressure.**

**I really hope so.**

***Mrs. Johnson enters Dr. Cooper's office***

**Hi Mrs. Johnson. It's been a while since I last saw you. How have you been?**

**I am not feeling too good. I think my blood pressure is acting up.**

**That's why it is very important that you keep your appointments so we can monitor your blood pressure more frequently. Let's take your blood pressure.**

**Ok... I know Dr. Cooper, but I've been through a lot lately.**

You've gone through a lot... tell me what's happening.

I don't know where to start... It's that since my mom passed, I've been very stressed out.

Her blood pressure is really high...

***STAY TUNED...***
